LBS Sustainability Centre

A Centre of the  **LAGOS
BUSINESS
SCHOOL**
PAN-ATLANTIC UNIVERSITY

Dean's Note

As we reflect on the year 2025, Lagos Business School (LBS) continues to stand at the forefront of driving responsible business and leadership through education, innovation, and collaboration. The LBS Sustainability Centre is a unique demonstration of our commitment to impacting the practice of management and equipping generations of leaders from the boardroom, the entrepreneur's office to the entry level cubicles in all sectors in nations across Africa. The Centre's work focuses on sustainable business, the leadership and management of economic activities in a manner that addresses sustainable development challenges. 2025 has been a remarkable year and I am glad to present to you the annual report of our stewardship, activities, engagement and impact results for 2025.

The LBS Sustainability Centre is a critical partner, voice and enabler in the sustainable business ecosystem in Nigeria, and across the continent. As detailed in this report, we are contributing significantly to knowledge dissemination, discourse, action and research that is advancing the adoption of business, leadership and management practices in sustainable business and sustainable development on the continent. Through the Centre's impactful programmes, robust partnerships, and far-reaching platforms, business leaders, professionals, individuals and sustainability enthusiasts are getting the right skills and knowledge needed to meet the evolving needs of their organisations and communities.

This year, the Centre expanded its academic programmes and increased the frequencies of existing programmes in high demand, introduced new executive courses and certifications focused on sustainable philanthropy and ESG integration. A case in point is the ESG Materiality Assessment and Sustainability Reporting Programme which saw record enrolment, occasioning its increase in delivery from one run to three run cycles, and more planned for 2026, thereby empowering business leaders to prepare for the new phase of corporate reporting in line with Nigeria's adoption of the IFRS S1 and S2 reporting standards.

With participation from global, continental and in-country participants, the LBS Sustainability Centre's engagements across its impact projects, forums and programmes have continued to grow and 2025 was no

Prof. Olayinka David-West
Dean, Lagos Business School

exception. LBSSC served over 395 participants, 4676 conference and webforum attendees, 4542 subscribers and readers from twenty (20) countries, with our impact and work across material issues of relevance to the African contexts spanning sustainable business, responsible leadership, social enterprise and nonprofit management, circular economy and policy for sustainable development.

To all our partners, participants, faculty, team members and affiliates, we appreciate you and say a big thank you for the progress made so far. Let's do more together in 2026!

...the LBS Sustainability Centre's engagements across its impact projects, forums and programmes have continued to grow and 2025 was no exception. LBSSC served over 395 participants, 4676 conference and webforum attendees, 4542 subscribers...

From the Director's Desk

The year 2025 has been a testament to the power of collective action in advancing sustainability across Africa. In 2025, the LBS Sustainability Centre's milestones turned ambition into tangible impact towards embedding sustainability at the heart of business and society.

Through our tailored advisory engagements, certificate and customised programmes, knowledge exchange forums and research, we empowered professionals, entrepreneurs, businesses and corporations to integrate sustainability and environmental, social, and governance (ESG) principles into their core organisational operations. Notably, our work with the firm and leaders in oil and gas, manufacturing and financial sectors took a new dimension from board and executive sessions, customised ESG materiality assessment studies, to industry insight research publications and jointly hosted forums.

Our Sustainability and ESG management focused programme offerings recorded milestone enrolment numbers and completion of over one hundred and fifty (150) business executives. We also commenced a specialised programme theme 'Sustainable Impact Philanthropy Programme (SIPP) supported by the Ford Foundation West Africa Office and as the host institution for the Global Chapter Zero Secretariat, we launched the Nigeria Chapter of the Climate Governance Initiative (CGI) with the support of corporate members and development partner institutions.

We doubled down on our mission to strengthen capacity of executives through learning programmes and seminars, increasing the frequency of our programme cycle runs of the ESG Materiality Assessment and Sustainability Reporting Programme, which accelerates readiness of companies in Nigeria to adopt the IFRS Sustainability and Climate-Related Disclosures (S1 and S2) and the Global Reporting Initiative (GRI) Standards. Working to enhance the sustainability of nonprofits and social enterprises. The Centre held the third edition of the Innocent Chukwuma Social Impact Youth Fellowship which concluded with the Youth Conference themed 'Sustainable Social Impact: A Roadmap for Youths in Transforming Societies' held in May 2025 with over 300 youths in attendance. The ICSI Fellowship graduated 14 Fellows who completed a 3 months-long hybrid programme of leadership, governance, ethics,

Orevaoghene I. Atanya
Director, LBS Sustainability Centre

emotional intelligence, advocacy, and impact design.

Further to our commitment to advance thought leadership, our knowledge exchange forums served as vibrant platforms for dialogue, learning, and action. Our flagship International Sustainability Conference (ISC), 2025 hybrid edition, themed "The Green Africa Economic Promise: Unlocking Value Through Corporate Sustainability," held in partnership with Global Reporting Initiative (GRI), Shared Value Africa Initiative (SVAI), PricewaterhouseCoopers (PwC) Nigeria, CGI Nigeria Chapter and Nestlé Nigeria PLC.

It is worthy of note, the ISC held over two-days with day 1 being a fully virtual forum; day 2, an in-person and hybrid convening convened over 800 multi-sectoral stakeholders from across the globe

“ Together, we are building a future where business success, societal well-being and environmental stewardship go hand in hand. ”

to explore practical strategies to harness Africa's green economic promise and natural assets through corporate sustainability, responsible innovation, data-driven governance, and inclusive growth.

In the financial services sector, we partnered with Stanbic IBTC Holdings Plc to shape industry specific discourse through the second edition of the Sustainable Finance Summit themed "Financing Resilience: Digital Innovation and AI for Climate-Smart Communities." The summit was a huge success with over 200 attendees in-person and about 2,000 attendees online, bringing to fore conversations by experts in the financial services and development sectors that forge collaborative action to close Africa's sustainable development financing gap through context-specific finance instruments that enable sustainable business growth on the continent. Staying true to our core purpose but leveraging partnerships, we provided knowledge and content support for

“ The summit was a huge success with over **200 attendees** in-person and about **2,000 attendees** online, bringing to fore conversations by experts in the financial services and development sectors that forge collaborative action to close Africa's sustainable development

the ESG webinar series delivered by Sterling One Foundation and other esteemed partners to elevate competencies and awareness on ESG, sustainability reporting and corporate governance.

We delivered the Advancing Nutrition, Health and Environmental Awareness through the Media programme in partnership with Nestlé Nigeria PLC which is in its 8th edition and the Leadership Programme for Sustainable Waste Management in support of Aspire Coronation Trust (ACT) Foundation which is in its 7th edition building business for Nigeria's emerging circular economy.

Our international collaborations and engagement include our careers webinar series on sustainability and climate action for the Business School for Climate Leadership (BS4CL) Africa in collaboration with member schools across the continent and supported by the UN Principles for Responsible Management Education (UNPRME) Africa Chapter; our hosting the secretariat to the Climate Governance Initiative (CGI), Nigeria chapter, which launched in June 2025. This is strategically aligned with our thematic focus areas on Responsible Business and Corporate Sustainability and we are glad to report that post-launch, CGI Nigeria has delivered two Director focused events in the course of the year: 'The Directors' Engagement Series' in partnership with the Financial Reporting Council (FRC) of Nigeria and an ISC Masterclass for Directors on the sidelines of the ISC titled "Fiduciary Responsibility and Strategic Oversight in the Age of Sustainability and Climate Related Disclosure," both events facilitated by KPMG Nigeria.

Beyond programme delivery, our research team and affiliates

continue to contribute to critical knowledge expansion areas and documentation. The Centre covers Nigeria in the continent-wide research work on the dignified and fulfilling work for Africa's youth led by our partner, the Centre on African Philanthropy and Social Investment (CAPSI) at WITS Business School. We also published a white paper in partnership with the Stanbic IBTC Holdings PLC Sustainability team as part of outcomes from the inaugural Sustainable Finance Summit, titled 'Sustainable Finance Opportunities in Emerging Markets,' the paper includes unique contributions and peer reviews by the KPMG sustainable finance team, the Impact Investment Foundation Nigeria, and our team of post-doctoral affiliate researchers.

None of these achievements would have been possible without the unwavering commitment of the Centre team of managers, project leads and associates with the significant support of our partners, faculty and professional affiliates, resource persons and the LBS-PAU community at large. These partnerships enabled us to co-create knowledge solutions, share best practices, and amplify the correct narrative on sustainability and business for collective impact. As we look ahead, I remain grateful for the trust and commitment of our stakeholders and we are more determined to advance our work in specific locations in Africa. Together, we are building a future where business success, societal well-being and environmental stewardship go hand in hand.

Join us on this journey again in 2026 and thank you.

About LBS Sustainability Centre

The LBS Sustainability Centre is the leading knowledge hub on sustainability and business out of Nigeria and across Sub-Saharan Africa. The Centre was initiated by Prof Chris Ogbechie in 2010 to refocus the relationship between businesses and their stakeholders by contributing to the development of responsible business leaders. We work with organisations, decision makers, business executives and managers to help them incorporate sustainable practices in their operations and develop innovative products and services that transform their communities and create economic value. This enables businesses to sustain livelihoods, reduce poverty, and contribute to national development as well as the achievement of the development priorities as codified in agendas like the African Union Africa Agenda 2063 Goals (The Africa We Want) and United Nations Sustainable Development Goals (SDGs).

Our Objectives:

- Knowledge creation through industry and action research in the areas of responsible business, corporate sustainability, corporate governance, corporate social responsibility, business ethics, nonprofit management, and social entrepreneurship.
- Knowledge dissemination through customised executive training programmes, seminars and workshops, LBS MBA and executive programmes, forums and conferences.
- Knowledge application through collaboration with businesses, government agencies, academic institutions and civil society organisations.

What we do

Stakeholder Engagements & Partnerships

Achieving sustainable long-term change in Nigeria requires a significant strengthening of the policy formulation and implementation process. This involves directly influencing policymakers, regulators and companies. The Centre leverages its faculty, digital infrastructure and dialogue sessions to advocate for the improvement of business engagement with society. This strategic focus has met with considerable success. The Centre was involved in the conception of the sustainable banking initiative by the Central Bank of Nigeria (CBN). This initiative led to the creation of the Nigerian Sustainable Banking Principles in 2012. The Centre was also involved in the formation of the Nigerian Business Coalition for Sustainable Development (NBCSD) in 2014. The Centre's commitment to collaborative partnership has seen it engage with some of Nigeria's leading organisations to drive the sustainability agenda in Nigeria and beyond.

Capacity Building Programmes

In the Centre's quest for continuous improvement, training programme curricula are consistently assessed with a view to ensuring they remain relevant and of immense use to our participants. As such, the Centre offers a series of capacity building programmes for public officials, business executives, and entrepreneurs, as well as sustainability courses woven into LBS' MBA programmes.

Research

LBS Sustainability Centre conducts industry and practitioner-focused research in business ethics, sustainability, social entrepreneurship and corporate governance. The research output of the Centre serves as the anchor for sustainability courses in Lagos Business School's full-time MBA programmes and executive education curriculum, as well as training programmes.

Industry Engagement

LBS Sustainability Centre also supports organisations in the design, development, implementation and assessment of their sustainability strategy, initiatives and projects. Our focus includes:

- Sustainability Integration in Strategy Development and Execution
- Corporate Social Responsibility Programme Design
- Socio-Economic Impact Assessment of Business and CSR Initiatives
- Development Agenda (SDGs, Africa Agenda 2063) Initiative Implementation

The Centre consolidates theory and practice on sustainability, builds leadership skills and supports constructive dialogue and collaboration between business, government, civil society and academics in order to find solutions to critical sustainability challenges. In our collective resolve to expand the sustainability conversation and embed sustainability thinking in corporate strategy, the Centre's research, seminars and stakeholder engagement are based on the following thematic areas:

Corporate Sustainability

Corporate sustainability entails the approach and action of businesses towards sustainable development, sustainability strategy, shared value, corporate social responsibility (CSR), and corporate philanthropy. It also involves the designing, building, and operating of structural elements in ways that do not diminish the social, economic and ecological processes required to maintain human equity, diversity, and the functionality of natural systems.

Through our knowledge-sharing forums and programmes, LBSSC is committed to helping organisations understand how sustainable business practices and sustainability initiatives create far-reaching impact. We also work with partners and relevant stakeholders on strategic policy advocacy and implementation in the areas of skills development, education, water, nutrition, health and power.

Responsible Business and Leadership

Responsible businesses are principle and value-driven, demonstrating consideration for employees, customers, suppliers and the wider society in the course of their profit-making activities. We believe leadership plays a key role in running responsible businesses that exemplify ethical conduct.

Africa is transforming, and the continent's economic and industrial development should be channelled in a manner that ensures businesses operate responsibly and contribute to the holistic sustainable development vision. Businesses in Africa must develop resilience to withstand the challenges encountered in the course of their every day operations. They should also see themselves as responsible for and to the society from where their businesses emerge, exist and thrive, because businesses are critical change agents, well-positioned to be at the helm of the transformation of Africa.

Circular Economy

A circular economy is based on the principles of design to eliminate waste and pollution, circulate products and materials by keeping them in use, and regenerating natural systems. This industrial model aims to restore or regenerate the ecosystem, society and economy by intention and design.

LBSSC is committed to driving knowledge and action for organisations that replaces the end-of-life concept with restoration, shifts towards the use of renewable energy, eliminates the use of toxic chemicals, which impair reuse and return to the biosphere and aims for the elimination of waste through the superior design of materials, products, systems and business models.

Nonprofit and Social Enterprise Management

Nonprofits, Civil Society Organisations and Social Enterprises play a pivotal role in the advancement and development of societies and African nations in particular. To ensure the long-term impact of this sector, however, these organisations require effective management and responsible leadership.

Social entrepreneurship addresses social problems by employing entrepreneurial principles, processes and operations. LBSSC is committed to supporting SMEs to solve social challenges by creating value for the socio-economic development of nations through the support of SMEs to integrate sustainability.

Public Policy for Development Outcomes

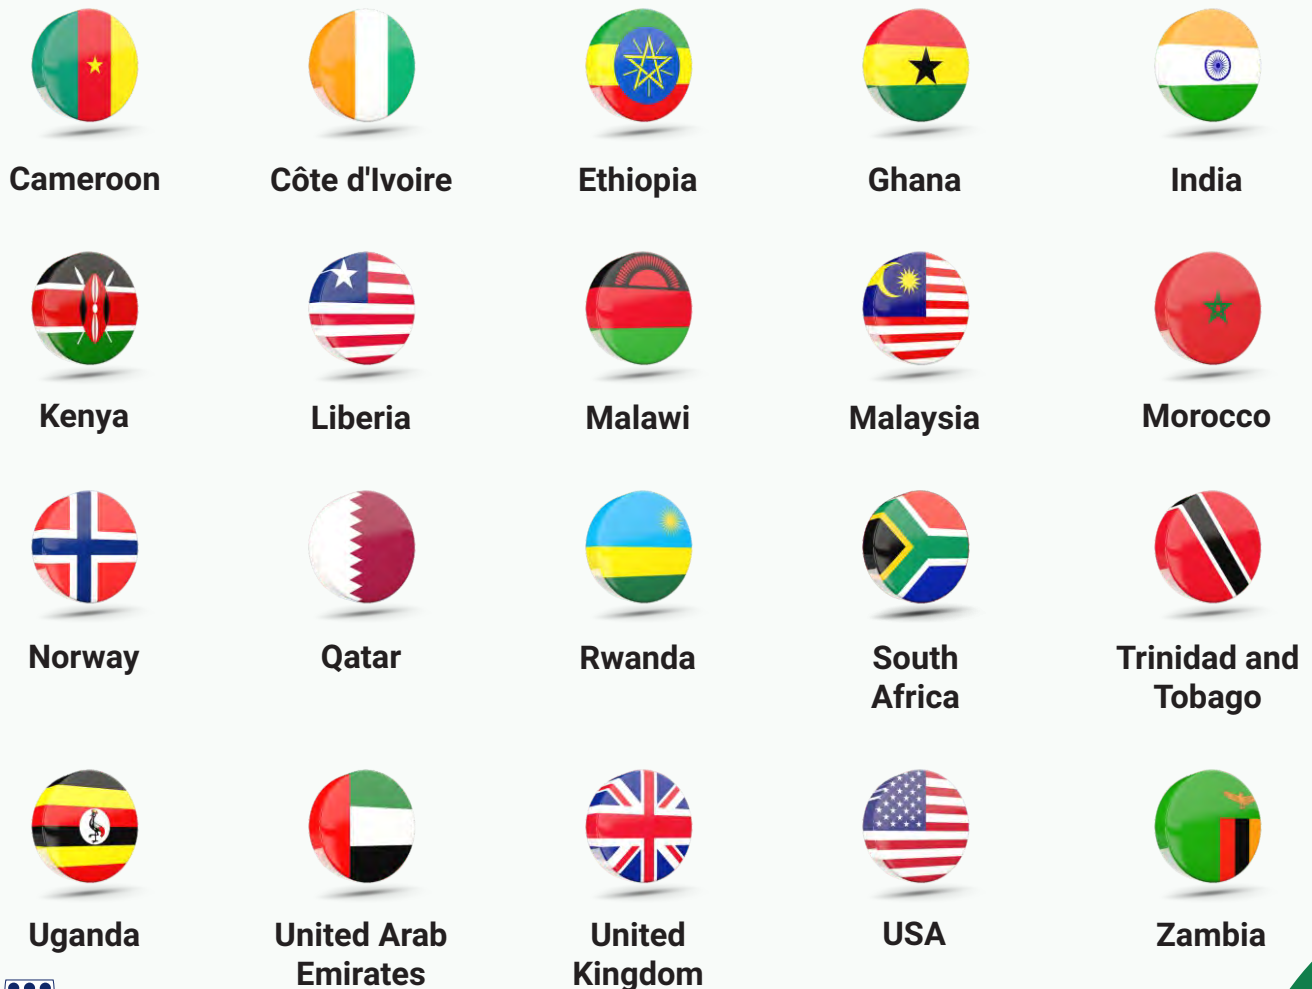

Government actions and policies play an important role in promoting sustainability practices. Our public sector engagements serve as a platform for cross sectorial collaboration to facilitate sustainable development at national, sub-national and continental levels.

Our Impact in Words - Testimonials

“

The programme met every expectation, and this has equipped me with the necessary knowledge to help my organisation begin the journey of ESG Materiality assessment and sustainability reporting.

-Akande Abiodun, FCMB Pensions

”

“

The programme was a transformational and most impactful learning experience I have had outside my first- and second-degree classes. It opened my eyes to a lot of untold human-focused stories, much of which are still out there left untold.

-Wasiu Alli, Business Day Nigeria

”

“

This course provides a strong foundation into understanding sustainability. I highly recommend it for senior management and executive management for a seamless outcome on the potential of what this course provides. It is heavy at the top. Personally I put this off for far too long but I am glad I have finally done it and can't wait to implement and return to build up on the foundation course.

- Audrey Odogu, eHealth Africa.

“

I got more than I bargained for. Before this, I had no real idea of what a non-profit was about, but attending this course has completely changed my perspective and given me clarity on how to move forward.

-Babatunde Rauf, Chief Executive Officer, Bridgespot Konzept

”

“Before this program, I was mostly leading from passion and purpose, but now, I have frameworks, tools, and real clarity on how to build systems, improve processes, and lead with strategy. I learned so much about governance, financial sustainability, stakeholder management, and program design and feel more confident to tackle these in my organisation. It's helped me understand how to strengthen the internal structure of my organisation so we can be more impactful and intentional with the work we do. I've also gained so much from the networking and community; meeting nonprofit leaders from across Nigeria doing amazing work was both humbling and inspiring. One of the biggest takeaways for me is that age doesn't define capacity. I felt seen, challenged, and included in every room, despite being probably one of the youngest participants. I'm already applying what I've learned, and I'll definitely be recommending this program to other team members in my organisation. The ripple effect of this learning will go far beyond me. Thank you LBS for this transformative opportunity.

- Oluwafeolami Awe-Joseph, Educational Guidance Development Initiative

This program brought unprecedented clarity to my career direction, equipping me with practical skills, valuable insights, and a deeper understanding of sustainability reporting. The training's real-world approach and expert guidance has empowered me to drive meaningful impact in my organisation. It is a game-changer for anyone looking to excel in sustainability.

-Ifeoluwa Ogunfuwa, Impact Investors Foundation

Through this training, I have gained the practical knowledge and confidence to integrate ESG principles into our quality and environmental management systems at Polyfilm Packaging Nigeria Ltd. It has strengthened our governance structure, improved our sustainability reporting approach, and enhanced our capacity to identify and manage sustainability-related risks and opportunities

- Iriogbe Hopoe Ehisuomah, Polyfilm Packaging

2025 Directors and C-Suite Sessions

Sustainability and ESG Awareness Session for Executives

The Lagos Business School Sustainability Centre conducted a one-day ESG and Sustainability Awareness Session for the Executive Management of the Prime Atlantic Group Ltd on Tuesday, January 28, at the Prime Atlantic Group office in Victoria Island. The programme provided executives with insights into sustainability and ESG strategy in the energy sector, highlighting key industry shifts and how they can be leveraged across diverse operational contexts.

The session was introduced by the Centre Director, Orevaoghene Atanya, and was attended by 12 executives (seven males and five females).

2025 Certificate Programmes

ESG Materiality Assessment and Sustainability Reporting Programme - April Run

The inaugural ESG Materiality Assessment and Sustainability Reporting Programme was conducted from April 22 to 25, 2025. It was a comprehensive learning experience designed to strengthen organisational capacity in identifying and managing Environmental, Social, and Governance (ESG) priorities. The programme delivered a structured blend of:

- Guided learning sessions, providing foundational and advanced ESG concepts
- Interactive discussions, enabling peer-to-peer knowledge exchange
- Practical group activities, allowing participants to apply frameworks and tools in real-world scenarios

Participants gained both the technical knowledge and the practical skills required to: Identify and prioritise material ESG issues within their organisations. To understand how these issues influence long-term value creation. And Integrate ESG considerations into corporate strategy, governance, and operational decision-making.

Nonprofit Leadership and Management Youth Academy (NPLM-YA)

The Nonprofit Leadership and Management Youth Academy (NPLM-YA) Programme held over the course of 9 weeks from May 2 to June 20 (online) and from July 3 - 4 (In-person), 2025. The programme modules empowered young and emerging African nonprofit professionals to be better managers and leaders in their respective thematic focus areas. This transformative programme was designed to enhance the managerial capacity of participants aged 18 to 35, equipping them with essential skills in leadership effectiveness, business fundamentals, and social innovation.

Leadership Programme for Sustainable Waste Management (LP-SWM)

The Leadership Programme for Sustainable Waste Management (LP-SWM) held over the course of five weeks starting from June 24 to July 31 (online) and August 07 to 08, 2025 (In-person). It was a capacity-building programme that advanced leadership development and trained young leaders on innovative and sustainable methods of waste collection, removal, processing, recycling and disposal. The certificate programme was also geared towards providing technical advice, business skills training, and deepening the understanding of sustainability concepts. In all, the programme was geared towards improving the operational and financial viability of waste management businesses. This programme was supported by the Aspire Coronation Trust (ACT) Foundation.

Advancing Nutrition, Health and Environmental Awareness Through the Media

The Nutrition, Health, and Environmental Awareness Through the Media programme held over the course of two weeks starting from July 22 to 25 (online) and July 30 to August 01, 2025 (in-person). The 2025 edition of the Nestlé Nutrition, Health and Environmental Awareness through the Media Programme engaged 26 organisations and 30 senior executives, media professionals, and journalists.

This year's programme was specifically tailored for senior executives, editors, and producers, equipping them with skills for strategic and impactful reportage on nutrition, health, and environmental stewardship. The learning journey featured seven (7) online sessions which introduced participants to fundamental concepts in nutrition, health, and the environment. The sessions also focused on solution-driven journalism and reporting on nutrition, health, and the environment.

The in-person component also included an experiential learning visit to the Alef Recycling Facility in Agbara, Ogun State, and a two-day intensive workshop at the ECS Professional Centre, Victoria Island, Lagos, with key themes on leadership, solutions journalism, nutrition, health, environmental protection, and climate change, and a strong emphasis on their relevance to business, agriculture, and the society at large.

Effective Sustainability and ESG Management Programme

The Effective Sustainability and ESG Management Programme held over the course of three weeks starting from September 2 to 18 (online) and September 23 to 24, 2025 (in-person). This certificate programme aimed to provide current and Africa-focused management knowledge in the area of corporate sustainability, corporate social responsibility, and Environmental, Social and Governance (ESG) management. The programme was designed for private sector executives based in Africa. The programme was a relaunch of the Corporate Sustainability Programme in line with our market research and feedback from the participants of the previous cohorts of the programme.

A group of approximately 50 people, including participants and facilitators, are posed for a group photo in front of the Lagos Business School building. The building's facade features the school's name and accreditation logos (AACSB, AMBA, EQUIS). The group is diverse in age and professional attire, standing on a paved area with some greenery in the foreground.

Impact Planning and Measurement in Social Investment Projects

The four-day online Impact Planning and Measurement in Social Investments and Projects programme equipped professionals with practical skills to design and evaluate impact frameworks aligned with global standards. Participants engaged in interactive sessions covering impact scoping, stakeholder analysis, measurement principles, SROI, data collection, dashboard creation, and impact communication.

Through guided group work, they developed and strengthened their own impact measurement frameworks. By the end of the programme, participants gained the ability to apply impact evidence for decision-making and advocacy, enhance accountability in social projects, and integrate tools such as Theory of Change and Logic Models into project planning.

Circular Economy Business Development Fellowship

The Circular Economy Business Development Workshop held on November 18 - 21, 2025. This fellowship empowered individuals and organisations to capitalise on the opportunities presented by the waste sector, contributing to a cleaner, more sustainable future.

The one-week workshop on circular Economy Business Development Fellowship is specifically tailored for alumni of the Leadership Programme for Sustainable Waste Management (LP-SWM). This workshop provided an in-depth critique of participants' existing business models, offering expert guidance to ensure that these models are sustainable and aligned with the latest industry trends. The workshop also explored how participants can effectively plug into the growing opportunities within the waste management sector.

Facilitators:

- Oreva Atanya - Lead Facilitator and Director, LBS Sustainability Centre
- Theresa Daniel-Akibor, Circular Economy and Sustainability, LBS Sustainability Centre, Lagos Business School
- Obaloluwa Dairo, Venture Development Lead Circular Economy Innovation Partnership
- Dr. 'Niyi Akinyemi FCA, Adjunct Faculty, Enterprise Development Centre, PAU
- Enyinnaya Iroadumba, Brand Connoisseur, Beacon Media & Comm. Services.
- Adamu Garba, Chief Operating Office, Nigeria Climate Innovation Centre (NCIC)
- Olufunto Boroffice, Founder, Chanja Datti
- Jonathan Ikeolumba, Affiliate, Sustainability Centre
- Esther Fagbo, Country Manager, Nigeria National Plastic Action Partnership (NPAP)

2025 Webinars

Virtual Engagement Meeting for Regulators and Business Stakeholders in the Waste Management Sector

Lagos Business School Sustainability Centre, in collaboration with the Aspire Coronation Trust Foundation (ACT Foundation), successfully hosted a Virtual Engagement Meeting for regulators and business stakeholders in Nigeria's waste management sector. The meeting convened waste management regulators, entrepreneurs, and other key stakeholders to examine pressing challenges and emerging opportunities within the sector.

Discussions focused on the current policy and regulatory landscape, key business constraints, and the need for collaborative approaches to advance sustainable waste management practices. Participants shared insights on aligning policy objectives with operational realities and identified areas for strengthened partnerships between regulators and private-sector actors.

Nonprofit Webinar Series: Volunteer Management and Developing Talent in NGOs

A Session on the Nigerian Volunteering Landscape

Nigeria's nonprofits depend heavily on volunteers to deliver impact, from climate action groups like SustyVibes, with about 700 volunteers, to food relief organisations such as the Lagos Food Bank, with over 24,000 volunteers. Despite Nigeria ranking third globally in volunteering time (53%) and fifth in overall generosity (World Giving Index, 2024), the challenging socio-economic environment often limits long-term volunteer commitment. To address this, Lagos Business School Sustainability Centre held a webinar on July 25 and explored how nonprofit leaders can strengthen volunteer recruitment, management, and retention, and what support systems are needed to sustain effective volunteer engagement and build a culture of lasting impact.

2025 Research Projects

Advancing Knowledge Dissemination

Exploring the Contribution (s) of the Non-Profit Sector to African Economies with Specific Focus on the Creation of Dignified and Fulfilling Work for Young People in Africa. An Africa-Wide Partner Research Project with Centre on African Philanthropy and Social Investment (CAPSI) and Mastercard Foundation

Project Overview

Since the 1990s, the nonprofit sector has been a vital driver of Africa's socio-economic development. Despite its recognised significance, comprehensive data on its impact in fostering dignified employment for young people, particularly marginalised groups, remains limited.

In collaboration with Centre on African Philanthropy and Social Investment (CAPSI) and the Mastercard Foundation, the Lagos Business School (LBS) Sustainability Centre has undertaken a multi-year research initiative to assess the economic contributions of nonprofit organisations to youth employment across 17 African countries. This study employs a mixed-methods approach to evaluate:

- The nonprofit sector's contribution to GDP
- Its role in providing dignified work for young people aged 15 to 35
- The impact of nonprofit sub-sectors in creating opportunities for marginalised groups, including persons with disabilities, refugees, and individuals in correctional facilities

Research Objectives

This project was designed to:

- Generate empirical data on the nonprofit sector's role in youth employment
- Highlight its contributions to dignified work, particularly for young women and marginalised youth
- Explore young Africans' perspectives on economic opportunities within the sector
- Understand transitions from informal to formal employment
- Demonstrate how employment access empowers marginalised youth economically, socially, and politically
- Provide evidence-based insights to inform policy and engage civil society actors

LBSSC Key Contributions and Engagements

As a key country partner, the Lagos Business School Sustainability Centre has played an integral role in advancing this research initiative by:

- Updating literature reviews conducted by CAPSI researchers
- Developing research design for Nigeria and contributing to a universal framework
- Conducting data collection through surveys, interviews, and convenings
- Analysing data and compiling findings into comprehensive reports
- Publishing research outputs to contribute to the sector's knowledge base
- Actively participating in regional convenings and training workshops to foster collaboration and capacity building

Insight Articles

Sustainable Finance Opportunities in Emerging Markets

Sustainable finance refers to the various financial instruments that are dedicated to mobilising financing for activities that have positive impacts on the environment and society. Sustainable finance options, driven by private sector investment, can provide a crucial tool to overcoming the funding gap in meeting the SDGs and the Africa We Want Agenda 2063 by delivering resources directly to sustainable investments that impact local communities and businesses on the frontlines of socio-economic and climate crises.

These and more are some of the insights captured in the whitepaper titled “Sustainable Finance Opportunities in Emerging Markets.” Commissioned by Stanbic IBTC Holdings, co-authored by the Lagos Business School Sustainability Centre, with contributors from the Impact Investors Foundation, and the KPMG West Africa's ESG and Sustainable Finance Team. The whitepaper highlights the current state of Sustainable finance opportunities, challenges and presents key recommendations to accelerate sustainable finance deployment for responsible and inclusive sustainable development.

Sustainability Initiatives @ LBS

Executive Sustainability Journeys

LBS Executive Education and LBSSC Facilitates Experiential Learning Trip for 2025 Global CEO Africa Programme to the Dangote Refinery

Participants of Lagos Business School's Global Chief Executive Program visited the Dangote Refinery and Petrochemicals Company at the Lagos Free Zone for an insightful tour of its facilities, including its Fertiliser plant and the seaport. The visit was organised by the LBS Executive Education in partnership with the LBS Sustainability Centre for senior business executives to witness the transformative project executed by the Dangote Group. It featured a presentation on Dangote Industries' role in achieving energy security by the President of the Dangote Group, Aliko Dangote. The visit featured discussions on manufacturing challenges and innovative solutions to enhance the business environment in the local context. The collaboration with Dangote Refinery and Petrochemicals highlights a shared commitment to fostering leadership and strategic business excellence.

Date: July 10, 2025

Venue: Dangote Petroleum Refinery and Petrochemicals, Lagos

Innocent Chukwuma Social Impact Youth Conference Empowering Nigeria's Youth for Innovation, Collaboration, Impact and Leadership

The Innocent Chukwuma Social Impact Youth Conference is a convening of youth leaders, social innovators, development practitioners, and civic actors from across Nigeria and West Africa to empower young leaders with the knowledge, networks and skills they need to drive innovation and impact. This year's theme: "Sustainable Social Impact: A Roadmap for Youths in Transforming Societies," inspired young changemakers to reimagine systems with possibilities that serve everyone.

Venue: Lagos Business School

PRME Principles for Responsible Management Education

LBS Sharing Information on Progress Report

Lagos Business School (LBS) remains steadfast in its commitment to the Principles for Responsible Management Education (PRME) by integrating ethics, responsible management, and sustainability into its academic and institutional activities. As outlined in the 2025 Sharing Information on Progress (SIP) Report, LBS continues to advance its mission of developing responsible leaders and managers for Africa.

The school's commitment to PRME's seven principles—Purpose, Values, Teach, Research, Partner, Practice, and Share—comes to life in the LBS' curriculum, research initiatives, community engagements, and industry partnerships. The 2025 report highlights key milestones, including improvements in campus environmental sustainability, expanded industry collaborations, and lifelong learning opportunities for students and alumni.

Through flagship initiatives such as the Sustainable and Inclusive Digital Financial Services Initiative (SIDFS), LBS Family Business Initiative, LBS Hospitality Initiative, LBS Healthcare Initiative, Africa Retail Conference and the International Sustainability Conference (ISC), the school fosters collaboration among private, public, and nonprofit stakeholders. LBS also maintains its global recognition, ranking second in Africa and 47th globally in the Financial

Times Executive Education 2025 rankings. Our open programmes ranked 49th worldwide, and LBS was upgraded to number 4 in the Palmes of Excellence League in Eduniversal's ranking. Additionally, LBS continues to hold triple accreditation (AACSB, AMBA and AABS), a distinction shared by less than 5% of business schools worldwide.

By integrating PRME's principles into its strategy, workplace culture, academic programmes, and industry engagements, LBS remains a leader in responsible management education, contributing to sustainable development across Nigeria and Africa. The 2025 SIP Report showcases the school's ongoing efforts, key achievements, and transformative impact in shaping ethical leaders committed to sustainability, impact and social responsibility.

Impact Initiatives & Collaborations

The Global Chapter Zero Alliance hosted at the World Economic Forum launched the Climate Governance Initiative (CGI) Nigeria Chapter. The Lagos Business School Sustainability Centre (LBSSC) is the host organisation for the Nigeria Chapter.

CGI Nigeria is a locally led platform that will shape a more sustainable and inclusive country through the eradication of plastic pollution. Through multi-stakeholder activities designed for all, the Nigeria NPAP will bring public, private and civil society leaders together to develop joint solutions to the plastic pollution crisis, both nationally and globally.

CGI Nigeria in 2025

- Chapter Launch
- Directors' Engagement Series
- ISC Directors Masterclass

Virtual Launch

The virtual convening brought together over 289 participants including corporate leaders, regulators, development institutions, and representatives from across international CGI chapters spanning the UK, South Africa, Kenya, and Egypt, to open a new chapter not just for CGI Nigeria, but to support and propel Nigeria's climate action and governance efforts.

With this launch, Nigeria formally joined the **Chapter Zero Alliance**, an initiative of the World Economic Forum, comprising over 100,000 board

directors across 73 countries working to integrate climate oversight into the core of corporate governance. CGI Nigeria is currently hosted by Lagos Business School with Lagos Business School Sustainability Centre as the Chapter Host Secretariat.

Date: June 23, 2025
Venue: CGI Zoom
Number of Participants: 289

The graphic features the Climate Governance Initiative Nigeria logo at the top. The main headline reads "Climate Governance Initiative Nigeria has Officially Launched!". Below this, it states: "We've officially joined the Climate Governance Initiative's global family – with a bold vision to support Nigerian board directors in embedding climate into governance, risk, and strategy." Two video thumbnails show speakers. A "Speakers" section lists: Dr. Mithal Bell-Osagie, Dr. Karli Toriola, Jari Badollet, Shaila Kulkarni, and Hinda Al-Azaid. A second row of speakers includes Dr. Gregory Johnson, Prof. Tina David-West, Dr. Babu Olowo, Peju Adesile, and Olamide Aisien. The event is scheduled for "23RD JUNE 2025" at "3:30PM" on "ZOOM". A registration link is provided: <https://climategovernanceinitiativeinigeria.org/events/virtuallaunch>. At the bottom, logos for "CHAPTER SUPPORTED BY" (including APAC, LBS, Siemens Energy, UoC, BCG, Deloitte, IFC) and "LAUNCH SUPPORTED BY" (including IFC, access) are displayed.

CGI Nigeria Directors' Engagement Series

The Director's Engagement Series with board directors and C-suite executives, was held in partnership with the Financial Reporting Council of Nigeria and facilitated by KPMG Nigeria. Themed 'IFRS S1 and S2: What Every Board Director Needs to Know,' this series reflects CGI Nigeria's commitment to helping boards shift from awareness to real action on sustainability and climate governance.

ISC Directors Masterclass

As part of the 2025 Lagos Business School (LBS) International Sustainability Conference (ISC), the Climate Governance Initiative (CGI) Nigeria, in collaboration with KPMG, delivered a Masterclass for Board Directors on 'Fiduciary Responsibility and Strategic Oversight in the Age of Sustainability and Climate-Related Disclosures.'

The Masterclass armed directors with essential knowledge and practical tools to understand their fiduciary duties in a climate-conscious business environment, navigate strategic oversight challenges in the era of sustainability reporting, and integrate climate-related disclosures into corporate decision-making.

It was a transformative session that reinforced the critical role of boards in driving sustainable and responsible business practices in Nigeria.

Innocent Chukwuma Social Impact Chair and Fellowship

The purpose of the Innocent Chukwuma Social Impact Fellowship (ICSIF) is to facilitate the emergence and development of the next generation of young social impact pioneers and social justice leaders in Nigeria. The fellowship programme spanned three months, with mentorship and advisory sessions, a youth-led web-forum, and sub-grant proposals. The program covered three disciplines: management, public policy and governance, and impact investing and international development, with topics including anthropology, ethics, leadership, sustainability, responsible management, financial management, and investment readiness. The programme aimed to clarify feminist leadership principles, explore leadership styles and tools, promote social justice values, and build knowledge in finance and impact investment.

Building Youth Leadership Capacity in Nonprofit Management

Recognising the need to build the capacity of youths in the nonprofit sector, LBS Sustainability Centre with the support of the Ford Foundation, West Africa developed and implemented the project 'Support Capacity Building for Young Feminist Leaders through the Non-Profit Leadership and Management Programme.' The project began in June 2017 and has led to the development of certificate programmes for youth and executives in the sector. All activities on the project inspire and empower young women and men to apply leadership skills inspired by feminist values and principles to grow their organisations and movements, build purposeful careers in the nonprofit sector and lead important social innovation initiatives with refined tools and greater confidence.

The project has connected youth to experienced mentors through the senior fellows in residence programme and the participation of industry experts as facilitators. Knowledge creation and dissemination have also been achieved through the development of a 'Nonprofit Management Handbook and Casebook' focused on leadership and management challenges in nonprofit organisations and social enterprises. The project also equips business students in LBS MBA programmes to create social, economic and environmental value through collaboration with Nonprofit leaders and delivery of community service initiatives, known as 'Personal Social Responsibility (PSR)' projects.

Equipping Youth Entrepreneurs and Intrapreneurs in Sustainable Waste Management

The 'Leadership Programme for Sustainable Waste Management' is a capacity-building project that advances enterprise and leadership development among the youths in Nigeria. The project led to the development and delivery of a certificate programme focused on innovative and sustainable methods of waste management as a business (collection, removal, processing, recycling and disposal). Supported by a grant from the Aspire Coronation Trust (ACT) Foundation, the programme has become a platform for sustainability and entrepreneurship for youths to take action to mitigate the environmental and health implications of improper waste management.

The programme is geared towards providing technical advice, business skills, and understanding of sustainability concepts to improve the financial viability of waste management business which can serve as a tool for addressing the rising (52.65%) youth unemployment in Nigeria. It aims to facilitate entry of informal youth-led waste management businesses into the formal economy in a manner that will improve their businesses positively and impact the society.

Nestlé Advancing Nutrition, Health, and Environmental Awareness Through the Media

The media plays a pivotal role in society's response to issues around healthy nutrition, environmental conservation and sustainability in general. However, journalists in Nigeria continue to grapple with the challenge of a difficult operating environment and lack of skills in sourcing information and communicating to the public in a way that delivers impact. This programme was designed to equip media professionals to create and disseminate accurate information on key nutrition, health, sustainability and climate change issues with the aim to drive behaviour change. This initiative was in line with Nestlé's commitment to advancing nutrition and preserving the planet while improving livelihoods in the communities closest to its operations. Designed by Lagos Business School Sustainability Centre and Nestlé Nigeria, the course was delivered by a faculty made up of LBS, Nestlé, Nestle NNI, SMC, Media and Industry experts. Project Partners include Nestle Nigeria, Nestle Nutrition Institute, PAU School of Media and Communications (SMC), and Alef Recycling, Agbara, Lagos.

23rd CHIEF S.L Edu Memorial Lecture by The Nigerian Conservation Foundation

The 2025 Chief S.L. Edu Memorial Lecture, the 23rd edition of this distinguished series, was a pivotal gathering for stakeholders committed to Africa's sustainable development. Organised by the Nigerian Conservation Foundation (NCF) in partnership with the family of the late Chief S.L. Edu, the 2025 lecture was themed "Greening Africa's Economies: Can Climate Positive Growth Deliver Prosperity?"

The event featured Prof. Yemi Osinbajo, SAN, GCON, former Vice President of Nigeria, as the Guest Speaker. Prof. Osinbajo shared transformative strategies for leveraging climate-positive growth to achieve sustainable prosperity in Africa.

The lecture provided a unique platform for engaging in forward-thinking conversations on green economies, climate resilience, and sustainable growth across the continent. It was a fitting tribute to the legacy of Chief S.L. Edu and a meaningful contribution to shaping Africa's green future.

59th Posthumous Birthday Celebration in Honour of Innocent Chukwuemeka Chukwuma

The Innocent Chukwuemeka Chukwuma Empowerment Foundation (ICCEF), in partnership with the Wole Soyinka Centre for Investigative Journalism (WSCIJ), hosted a virtual event to commemorate the 59th posthumous birthday of Innocent Chukwuemeka Chukwuma. The event brought together thought leaders, human rights advocates, policymakers, and civil society actors to celebrate his enduring legacy in social justice and civic empowerment.

The programme featured goodwill messages from key stakeholders, including representatives from CLEEN Foundation, Community Life Project, and the McArthur Foundation. Insightful discussions were led by distinguished speakers such as ACP Olumuyiwa Adejobi, Mrs. Titilola Adeniyi, Ms. Juliana Francis, and Barr. Samuel Akpologun, who addressed critical issues surrounding law enforcement, gender-based violence, security, and justice reform.

The LBS Sustainability Centre (LBSSC) was represented by Oreva Atanya, Director, LBSSC, reaffirming the Centre's commitment to fostering conversations on human rights, governance, and sustainable development.

GIVO Africa Zero Carbon Recycling Centre Launch

As part of International Recycling Day celebrations, GIVO Africa in collaboration with the Lagos State Office of Climate Change & Circular Economy, launched its newest solar-powered recycling centre in Ikota, Lagos. The centre represents a major stride in Nigeria's journey toward climate resilience and sustainability, powered by renewable energy and driven by circular economy principles.

Goodwill messages were shared by representatives of the diplomatic community, including the Netherlands and Danish embassies. The LBS Sustainability Centre (LBSSC) was represented at the launch by Osanua Nwagbara and Blessing Oduniyi, reflecting the Centre's continued commitment to promoting climate innovation and circular economy solutions.

This launch marks a significant collaboration between public and private sectors and sets a strong precedent for clean, community-driven recycling initiatives in Nigeria.

Venue: Lagos Oriental Hotel

The Nigerian Impact Investing Research Industry Collaborative (NIIRIC) Research and Innovation to Commercialisation Workshop

Hosted under the Nigerian Impact Investing Research Industry Collaborative (NIIRIC), the event created a space for bold ideas, shared learning, and urgent conversations around unlocking Nigeria's innovation potential by building an infrastructure and ecosystem to commercialise innovative ideas and research. It brought together researchers, innovators, and entrepreneurs for an insightful workshop on "Research and Innovation to Commercialisation." Oreva Atanya, Director, LBS Sustainability Centre, delivered the opening remarks.

Participants explored practical strategies to bridge Nigeria's research-to-market gap, where currently less than 2% of research is commercialised. Sessions focused on strengthening IP frameworks, designing market-ready business models, and applying design thinking to innovation. Also, the need for collaborative systems, funding access, and institutional support came through as critical enablers.

It also highlighted the work of NIIRIC in shaping policy, strengthening capacity, and fostering partnerships across sectors to drive scalable, sustainable impact in key areas like agriculture, healthcare, manufacturing, energy, and tech. Real progress happens when we build intentional pathways, from academic research to industry application, from policy to product, and from concept to commercialisation.

Venue: Shoregate Hotel, Ikeja

The 2025 International Day of Families High Level Private Sector Breakfast Dialogue

In commemoration of the International Day of Families (IDF) 2025, ADABA Initiatives in collaboration with The Nanny Academy and The Executive Parent Ally (TEPA), a High-Level Breakfast Dialogue with Industry leaders and stakeholders themed: “Utilising Policy towards productive employment and decent work for all families – Lessons from the private sector,” convened People & Culture Leaders/ HR Business Support Partners, CEOs, CSO/Social Sector Leaders and Leaders of Academia with a view to ideating, documenting and disseminating best practice to support working families, to foster inclusive and sustainable best practices.

This year’s IDF global theme, “Family-Oriented Policies for Sustainable Development: Towards the Second World Summit for Social Development,” presented a timely

opportunity for this convening to examine the role of organisations in shaping through policy, family centered/family responsive work environments that reflect the realities of all families in their diversity. A direct outcome of this convening was the development of a policy brief and communiqué capturing insights, challenges, and action points to inform ongoing advocacy to private sector organisations.

Venue: Civic Centre, Lagos

Capacity Building Training on Resource Efficiency and Circular Economy for Industrial Associations, Civil Society Organisations and Non-Governmental Organisations

The training was held under the Promoting small hydropower development and circular economy approaches in Nigeria Component 2: Circular Economy (CE) Sub-Project titled “Advancing Nigeria’s green and just transition to Net Zero through circular economy practices” to upgrade knowledge on resource efficiency and circular economy core principles and practices, specifically focused on off-grid energy equipment (OGEE).

Meeting the demand for clean energy in Nigeria has spin-off effects on the environment, including the generation of used off-grid energy equipment (used OGEE) such as electric and electronic waste (e-waste), plastics, solar panels, and used batteries. The CE Sub-Project aims to improve management of used OGEE with circular economy practices for mitigation of pollution and Green House Gas emissions. The project provides capacity building activities for enabling institutions which are relevant to used OGEE and/or promoting circular economy through implementation of Extended Producer Responsibility (EPR).

Date: July 7, 2025

Venue: Leola Hotel, Maryland Estate, Lagos

Global CEO Programme Visit to Dangote Refinery

The Dean, Lagos Business School, Professor Olayinka David-West, led senior business leaders from Nigeria, Kenya, Uganda, Tanzania, Ghana, and Cameroun attending module two of the Global Chief Executive Officer - Africa Programme (GCEO Africa) at Lagos Business School, Pan-Atlantic University on a working visit to the Dangote Petroleum & Petrochemicals Complex on Thursday July 10, 2025.

In the delegation were the Dean of Strathmore Business School (SBS) Nairobi, Dr. Caesar J. Muriithi Mwangi, LBS GCEO Academic Director Patrick Akinwutan, LBS Director of Executive Education, Victor Banjo, SBS GCEO Academic Director, Carol Musyoka and LBS Chief Marketing Officer Nsima Ogedi-Alakwe.

The Dangote Petroleum Refinery and Petrochemical Complex, situated in the Lagos Free Zone (Tolaram) in Lagos, Nigeria, stands as Africa’s largest oil refinery and the world’s biggest single-train facility. With a processing capacity of 650,000 barrels per day (bpd), it is designed to meet Nigeria’s entire domestic fuel demand and export surplus products. Incorporating state-of-the-art technology, the refinery adheres to stringent international

ABC Health Panel and Roundtable Sessions at ASIS 2025

The Roundtable themed, 'Consolidating Bold Impact Actions towards Achieving Self-Sufficiency in Africa's Healthcare: Aligning Priorities with Technological Innovations' brought together a coalition of decision-makers, investors, innovators, policymakers, and critical stakeholders from the Public and Private Sectors to unpack one of the most urgent imperatives of our time, Africa's journey towards healthcare self-sufficiency. The conversation centred on multi – dimensional challenges with the aim of deepening public-private sector collaboration, optimise opportunities, drive the required scale of change for bold and scalable actions that drive localised production, strengthen healthcare systems, and harness technological innovations that are localised, and which influence coherent policies and investment priorities that can accelerate the continent's health independence.

ABCHealth Roundtable Session at the Africa Film Finance Summit

The African Business Coalition for Health (ABCHealth) hosted a Health Panel at the Africa Film Finance Forum 2025! Themed 'Health on the Big Screen – From Film Reel to Real Impact Mobilising Private Sector Capital for Africa's Health Care Sector through Stories.' This high-level roundtable brought together visionary leaders from the private sector, healthcare, creative and film industries, finance, philanthropy, and policy to explore how film can be leveraged as a catalyst for investment and innovation in Africa's healthcare sector. Through powerful narratives and strategic partnerships, the conversation challenged conventional thinking, spotlighted opportunities for cross-sector collaboration, and laid the groundwork for a future where storytelling drives real-world health impact.

Date: September 18, 2025

Venue: Lagos Oriental Hotel, Victoria Island

AVPA Regional Convening

The Africa Venture Philanthropy Alliance (AVPA) West Africa Office held an Exclusive Regional Convening themed "Unlocking Catalytic Capital for Climate-Smart Investing in West Africa." AVPA seeks to bridge the gap by bringing together investors, policymakers, development finance institutions, and entrepreneurs to explore innovative financing mechanisms, de-risk opportunities, and faster partnerships that can unlock capital for high-impact, climate-smart projects across West Africa. This convening builds on the momentum of AVPA's flagship Africa Impact Investment Fellowship

(AIIF) and Africa Climate Investing Forum (ACIF), programmes that form part of AVPA's Knowledge Sharing and Learning Centre. This platform fosters structured peer-to-peer learning and helps bridge gaps in climate finance on the continent.

Date: September 22, 2025

Venue: Radisson Blu Anchorage, Victoria Island, Lagos

Gender Impact Investment Summit

Delivered by the Impact Investments Foundation, the Gender Impact Investment Summit is a robust platform that convenes stakeholders to address the gender financing gap in Nigeria. By bringing together key stakeholders, showcasing innovative models, and facilitating meaningful discussions, the summit aims to accelerate progress towards a more inclusive and equitable investment landscape.

Date: October 2, 2025

Venue: Civic Centre, Victoria Island, Lagos

31st Nigeria Economic Summit

The 31st Nigerian Economic Summit (NES #31), themed “The Reform Imperative: Building a Prosperous and Inclusive Nigeria by 2030,” convened a diverse gathering of global leaders, senior government officials, CEOs, economists, development partners, scholars, and change-makers to build consensus on the next phase of Nigeria's transformation and shape actionable policies and practical solutions for Nigeria's socioeconomic development. The Summit adopted a pragmatic, futurefacing lens to shape a cohesive national agenda that balances macroeconomic stability with inclusive growth.

At the summit, The LBS Sustainability Centre team also attended the Africa Philanthropy Forum and Rand Merchant Bank dinner sessions themed 'Investing in Africa's Foundations: African Philanthropy Coalition for Foundational Learning' and 'Funding the Future: Sustainable Finance as a Growth Engine' respectively.

Date: October 6-8, 2025

Venue: Transcorp Hilton, Abuja

Digital Innovation in Circular Economy in Africa Project Inception Meeting

The DICE Africa Project, implemented by NCIC and supported by IDRC, is focused on building a sustainable Africa: One circular economy innovation at a time. This initiative seeks to foster innovation, sustainability, and collaboration, driving inclusive solutions that strengthen circular economy systems across the continent. The inception meeting doubles as the launch of the project, providing an overview of the project, outlining expected outcomes, and creating a platform for participants to contribute ideas, questions, and suggestions that will help shape its success. Jonathan Ikeolumba, Affiliate, LBS Sustainability Centre spoke on the panel themed “Scaling Circular Economy SME Clusters in Africa through Digital Transformation and Inclusive Finance.”

Date: October 9, 2025

Venue: Financial Centre For Sustainability (FC4S), Victoria Island, Lagos

ACT Foundation 9th Annual Breakfast Dialogue (ABFD9)

The 9th edition of the ACT Foundation's Annual Breakfast Dialogue convened visionary leaders, changemakers, development professionals, and innovators who are shaping the future of Africa. With the theme, "Innovate, Advocate, Lead: The Future of Africa," the 2025 edition underscored the Foundation's continued commitment to building sustainable impact across the continent. The Dialogue served as both a reflection of ACT Foundation's eight-year journey of driving social transformation and a bold invitation to reimagine how innovation, advocacy, and leadership can co-create Africa's future.

Date: October 22, 2025

Venue: Virtual

2025 CIPM Conference

The Chartered Institute of Personnel Management (CIPM)'s International Conference and Exhibition is a major platform for intellectual and creative discourse covering various contemporary global themes of national importance delivered by recognised Thought Leaders. The 57th conference themed 'Reimagining The New World Of Work' focused on upskilling and evolving with a changing world to improve Nigeria's labour market.

Date: October 27-30 2025

Venue: International Conference Centre, Abuja

LAPO Sustainable Finance Conference 2025

Themed “Microfinance for Climate Resilience: Empowering Communities, Driving Innovation, Shaping Policies,” the event convened financial institutions, policymakers, development partners, climate experts, fintech innovators, and community leaders to explore innovative pathways through which microfinance can strengthen climate resilience, empower grassroots communities, and contribute to sustainable development.

Date: October 31, 2025
Venue: Muson Centre, Lagos

Ford Foundation Grantees Convening

The 2025 Ford Foundation Grantee Convening was held in Abuja, Nigeria, with grantees from Ghana, Nigeria, and Senegal. The theme for the programme was “Shifting Narrative: Reimagining Possibilities and Reclaiming Agency”, bringing together Office for West Africa grantees working across Ford Foundation’s two pillars of work, namely Gender, Racial, and Ethnic Justice (GREJ) and Natural Resources and Climate Justice (NRCJ), as well as the broader intersectional focus areas. This strategic engagement aimed to deepen relationships and partnerships among grantees and also provided a valuable platform and opportunity to share and foster learning on institutional sustainability (Learn, Share, Utilise, and Collaborate).

Date: November 3-4, 2025
Venue: Lake Greenfield Hotel, Kado, Abuja

Ford Foundation West Africa Anniversary (OWA @65)

For more than six decades, the Ford Foundation has stood with the people of West Africa through profound transformation, resilience, and renewal. It rolled out the drums to mark 65 years of unbroken commitment to promoting social justice, equity, and human dignity across Nigeria and the West African sub-region. The event, themed “OWA@65: From Nation Building to Social Justice,” brought together government leaders, philanthropists, civil society pioneers, and Ford Foundation executives to reflect on the organisation’s decades-long impact in the region.

Prof Yemi Osinbajo delivered the keynote remarks, affirming that Africa’s true wealth is not beneath our soil – it is in her people. “When we invest in them, when every policy, budget, and reform answers to the needs of the majority, we lay the foundation for genuine progress. Social justice is not charity; it is sound economics. It builds nations that are stable, peaceful, and productive because every citizen has a stake in their country’s success”

Date: November 5, 2025
Venue: Rainbow Marquee Event Centre, Garki

Lagos International Climate Change Summit

The Lagos International Climate Change Summit (LICCS) is the global convening of Africa's climate leadership. The 11th edition themed 'Blue Economy, Green Money: Financing Africa's Coastal Resilience & Ocean Innovation' was hosted by the Lagos State Ministry of the Environment and Water Resources. The Summit highlights Lagos' innovation, resilience, and commitment to sustainable growth ahead of COP30.

Date: Nov 6-7, 2025

Venue: The Lagos Continental, Victoria Island, Lagos

WIMBIZ Annual Conference

The 2025 Women in Management, Business and Public Service (WIMBIZ) conference focused on the theme "OWN: Own, Walk, Nurture," urging women to own their stories, walk in power, and nurture future generations. Discussions emphasised collaboration, economic transformation, and increasing female representation in leadership, with key sessions on personal/financial leadership, advocating for political inclusion like the Reserved Seats Bill, and granting entrepreneurial support. Highlights included powerful keynotes, expert panels on leadership, networking, mentorship, and advocacy for gender balance in Nigeria and beyond.

Date: November 6-7, 2025

Venue: Eko Hotels & Suites, Lagos

14th Sustainability in the Extractive Industries (SITEI) Conference

The 14th edition of the Sustainability in the Extractive Industries (SITEI) Conference themed 'From Emissions to Assets: Carbon Accounting, Trading and Offsetting in Africa's Extractive Sector,' explored the transformation of carbon emissions into economic value within Africa's rapidly developing carbon market. The conference brought together leaders, policymakers, and sustainability experts to discuss how organisations in the extractive sector can leverage carbon accounting, trading, and offsetting to drive both compliance and competitiveness.

Key discussions centred on Africa's potential to generate large-scale carbon credits, the evolving policy landscape; including Nigeria's Carbon Market Activation Policy and the growing opportunities for companies to participate effectively in the emerging carbon economy. The conference provided clarity on frameworks, market mechanisms, and investment pathways that will shape the future of low-carbon development across the continent.

Date: November 25, 2025
Venue: Virtual (Zoom)

2025 Agriculture Summit Africa (ASA)

ASA 2025, themed “Survival of the Greenest,” united leaders to drive sustainable solutions and position Africa as a global food powerhouse. Africa has the resources to be a global agricultural leader but faces rising food insecurity. To succeed, it must modernise farming, improve infrastructure, and build climate-resilient systems.

Date: November 6-7, 2025
Venue: Transcorp Hilton, Abuja

PAU Media Roundtable

Pan-Atlantic University's Media Roundtable has established itself as a forum for dialogue at the intersection of media, governance, and society. This year's media roundtable themed, 'AU Agenda Goals 2063: The Media as a Catalyst for Action in Nigeria' unpacked how media practitioners can act as catalysts for informed citizen engagement, transparency, accountability, and advocacy for the continent's development aspirations.

Date: November 20, 2025
Venue: Honeywell Auditorium, LBS

Directors' Engagement Series

The exclusive Directors' Engagement Series themed 'IFRS S1 and S2: What Every Board Director Needs to Know' was delivered by Climate Governance Initiative (CGI) Nigeria in partnership with the Financial Reporting Council (FRC) Nigeria and facilitated by KPMG Nigeria. The engagement provided directors with global insights into the global standards reshaping sustainability reporting and climate governance.

Venue: BON Hotel, Ikeja GRA, Lagos

3MTT National Impact Summit

The third edition of the 3 Million Technical Talent (3MTT) National Impact Summit, held in Abuja to showcase innovation, celebrate talent, and chart the future of Nigeria's digital workforce, who are mainly young Nigerians who have gained new skills, transitioned into jobs, created solutions, launched startups, and become active contributors to Nigeria's digital economy.

The vision is clear – to build Nigeria's digital workforce and make Nigeria a net-exporter of technical talent.

Date: December 11, 2025

Venue: State House Banquet Hall, Aso Villa, Abuja

The Next Business Advisory Group (BAG) Meeting

Following its official launch in Abuja, the National Business Advisory Group (BAG) held a session in Lagos. The meeting focused on defining priority national targets for the upcoming cycle of the National Biodiversity Strategy and Action Plan (NBSAP), including aligning focus areas with broader national development objectives, establishing a realistic timeline for the Business Action Plan, and setting the frequency of meetings for 2026.

The session brought together key members and corporate sustainability leaders, whose strategic contributions helped shape the agenda and guide the Group's next steps toward achieving measurable progress in biodiversity action. The project is implemented by the Nigeria Conservation Foundation in partnership with Natural Ecocapital with funding support from Business for Nature.

Date: December 15, 2025

Venue: Vintano Hotel, Lagos
